Scope and Content

The Brooklyn Letterhead Collection spans 200 years of business in Brooklyn. Several thousand different businesses, institutions, and organizations are represented in the collection, including carpenters, plumbers, painters, city agencies, religious institutions, and more. This complete listing of the names, addresses, and dates from the letterhead collection should prove useful to genealogical researchers, those interested in the history of various industries in Brooklyn, neighborhood historians and many others. Many of the letterheads are visually interesting as well, with elaborate typefaces, intricate imagery, and archaic handwriting.

Arrangement

The items are arranged alphabetically by business name. Multiple items from the same business are arranged chronologically.

Business names are as written on the letterhead. If a field is blank, that information is unavailable on the letterhead. All addresses are in Brooklyn unless otherwise noted. There are some addresses in Manhattan, Queens, and Long Island. There is one entry per item, so some businesses have multiple entries. If locations in multiple cities or boroughs are listed on the letterhead, only the Brooklyn address is included here.
