SECTION 3 - PLANNING
NEEDS ASSESSMENT AND DEVELOPMENT OF THE PLAN OF SERVICE

3.1 Provide a summary describing the processes used to assess member needs in the development of the Plan of Service.

It is Brooklyn Public Library's goal to promote a culture of literacy and lifelong learning and to be a critical information resource for all Brooklynites, especially those in need. To address this goal in our NYS Plan of Service, BPL is updating its 2018 Strategic Plan through a series of staff and stakeholder engagements that have highlighted strategic priorities coming out of the pandemic. Led by the President and CEO (Chief Executive Officer), the Office of the Chief Librarian and the Office of Strategic Planning, over 200 staff members weighed in on their experiences working through the pandemic and identified challenges and opportunities going forward as they seek to re-engage their communities and improve access to services after a significant pause during 2020 and part of 2021. Surveys, focus groups, internal publications, and facilitated discussions via Zoom were the primary sources of obtaining feedback. In addition, staff reviewed current nationwide library trends as well as demographic information, information from community outreach, and analyzed trends in its usage statistics to determine appropriate services.

3.2 Identify the groups involved in development of the Plan of Service and each group’s role

Creating a plan that will address the needs of all our customers was a collaborative effort between our: 1. Board of Trustees - the Board is responsible for review and approval. Through the Library Operations Committee (a subcommittee of the Board of Trustees) the plan is discussed and approved. Once approved by this subcommittee, the Plan is presented to the full Board for final approval. 2. Executive Management Team - this team will review the input made by public service staff to determine appropriate areas of focus. They will make recommendations to move the plan forward for approval by the Library Operations Committee. 3. Public Service Staff and departments - are responsible for doing outreach into communities, identifying and recommending services to the plan that are based on their contacts with customers, community organizations, elected officials and grass roots organizations.

3.3 Describe the planning process for the 2022-2026 Central Library Plan.

The Central Library Five Year Plan of Service is the result of collaboration between BPL's Chief Librarian, the Central Library director and staff, and the Strategy Department.
3.4 Identify the groups involved in
development of the 2022-2026
Central Library Plan and each

We will collect statistics and track trends based on the areas we have included in the Plan of Service. Brooklyn Public Library has statistical analysts who focus on tracking this information for the organization. We will collect: library card registrations, programming statistics (sessions and attendance), circulation (holds, renewals, turnover rate), expenditures (per capita expenditures for collections), security incidents, customer satisfaction through customer service forms, website visits, public computer usage, wireless usage, electronic database usage, summer reading statistics, reference statistics (virtual and in-person), attendance (door count/visits), and number of work orders for building issues.

3.13 Provide the URL for the evaluation form(s) used by members.

3.14 Describe how the information on customer satisfaction will be used to shape the system's plan in the next year or in the following planning cycle.

Analysis of our usage statistics such as door count, program attendance and sessions, library cardholders, and circulation will serve as key components of continued planning. There will also be an ongoing review process of customer feedback and reporting which will be shared with Senior Management and our Board of Trustees.

REVISION PROCESS

3.15 Describe the process for revising the system's Plan of Service for submission to the New York State Education Department/New York State Library.

To ensure our viability as an organization in the future, BPL will continue to review library trends, collect customer feedback through surveys, focus groups, and social gatherings. Collected satisfaction surveys and data from focus groups will be compiled and areas of improvement will be identified. Findings will be presented to senior management for review. Funding and alignment with institutional goals will be the primary measures for incorporating improvements and revising the plan.

The creation of Center for Brooklyn History, through the partnership with
Brooklyn Historical Society and Brooklyn Public Library, will expand
access virtually, digitally and in person. With the combining of collections
held at the Brooklyn Public Library’s Brooklyn Collection, we have created

community-based collections, and collections from groups that are often
underrepresented in institutions. We are also focused on participating in
